Thanks Sherrel!

Here is my updated blurb for the weekly:

New Cassel: No Change in status. Jennifer met with Sharon on 5/21 to discuss the draft SOWs and AOC. Comments on the findings of fact section in the AOC were provided to Sharon on 6/2. ORC is reviewing the revised draft SOW for the OU1 RD and OU3 RI/FS, which were transmitted to ORC 4/30. We met with ORC two weeks ago to discuss timing for issuance of the special notice letters. At the request of John Privitera, a meeting with the Frost Street Parties has been scheduled for 6/12. With respect to OU2, the USACE has submitted for our review a draft data evaluation report and work plan to address data gaps downgradient of the Hicksville public supply wells. An interim set of comments on the down gradient data gaps work plan were transmitted to USACE on 6/4. Final comments are expected to be transmitted next week pending PSB’s submission of comments.

Pete – I’m cc’ing you to give you an update on these items as well.
